

Interschool Squash Competition

Thanks Josh Blakey

This was my first time running the interschool competition and I was quite nervous about how it was all going to run, but as I found out, it was a lot of fun. With a couple of late changes to the draws, we got underway on day 1 with the year 7-9 group and I personally saw some really good squash played, not only by the kids who were already familiar with squash but from the players who had only played squash a few times as well. The girls final between Ursula Frayne CC and Perth Modern was definitely a highlight for me.

We moved on to day 2 for the year 10-12 group, feeling slightly more confident in the way things would work. We had a few sudden death points in the first couple of rounds which was exciting for everyone playing and watching. The rain then started pelting down on the roof which made it hard to hear marker and referee calls but also sounded like a cheering crowd. We had another very good final today between Shenton college and Carine SHS, with Shenton winning by only 3 points in the last game!

All in all, I had an amazing time running this tournament with the help of Serena Richardson and I can't wait to do it all again next year.
